

K9-V

K9 SERVICES & CONSULTING

for COMPANIES & INSTITUTIONS

about us

Based on the innovative and unique combination of **dog & technology**, K9-V is a leader in **professional dog training**, applicable in many areas thanks to the experience gained in military, civil, social and private fields.

The company has its roots in the **family breeding**, which started specializing in the molosser breed and expanded over time to become a center of excellence for experts and enthusiasts of cynophilia: **Centro Cinofilo dei Volsci**.

Spread over three hectares of land in the wooded and fluvial area of Sora (near Rome, Italy), the Center is home to a **professional breeding** recognized by **ENCI – FCI**, and a **dog boarding** in compliance with current **ASL regulations**; also, it is equipped with both outdoor and indoor **training camps** for training courses for civilians and K9 units, specializing above all in olfactory detection.

In 2024, the technique of dog handling in **Free Handler Mode** through **remotely piloted devices** developed by K9-V has been patented.

K9-V collaborates with the association "**Fedele al suo padrone**" for events and seminars dedicated to social matters, such as "*Pet & Technology*", an inclusive project for people with disabilities.

K9-V collaborates with the association "**K9 Italia**", officially recognized by the Italian Ministry of Enterprises and Made in Italy to issue Professional Qualification Certificates for Security K9 Professionals (official website: www.k9italia.com)

In 2026, K9-V launched its **online shop** for K9 products and accessories, such as hand-made leashes, collars and professional kennels (official website: www.k9-v.com)

areas of expertise

K9-V provides the following services for **companies** & **institutions**:

- **Scent Detection** dogs
- **Search & Rescue** dogs
- **Personal Defense** dogs
- **Low Profile** dogs
- **Event Security** dogs
- **Security Training** courses for store personnel
- **Risk Assessment**

K9-V, through Centro Cinofilo dei Volsci, provides the following services for **private citizens:**

- **Breeding**

scent detection

EXPLOSIVES (EDD)

Detection of **all explosives**, including **NATO/Non NATO**, **IED** (improvised explosive device) and **HME** (home made explosive).

"Pet & Technology" demo with EDD in Free Handler Mode through robot dog.

ELECTRONIC DEVICES

Detection of **all electronic devices**, both **active** and **passive**, with or without **battery**.
For instance: cellphones, cameras, microcameras, bugs, etc.
Detection can be done, in complete safety, on site, inside/outside vehicles and on people themselves.

DRUGS

Detection of **all narcotics** (incl. Fentanyl).

OTHER

Other substances or objects, according to customer requests.
For instance: meds for pharma companies, mold, blood, corpses, objects belonging to specific persons, etc.

search & rescue

In Search & Rescue operations, dog's help is fundamental in order to speed up the job and easily reach missing people even in harsh environments.

Available activities:

- **carrier dog:** dog assists the missing person by carrying on its harness essential goods, such as water, food, meds, first aid kit, communication devices, etc.

- **rescue dog:** dog assists the missing person by helping him/her to deal with panic

These activities can be implemented also in case of **public building evacuation**.

"One Health One Work" project - presented to Italy PA Forum 2025, with the aim of improving non-hospital care timing thanks to man-drone-dog system through patented K9-V technique.

personal defense

Supply of K9 service with dog specialized in **personal guard** and **defense** (eg. VIP security).
